INTERMEDIATE	SCENIC OVERLOOK
DIFFICULT	BENCH
FREERIDE	PARKING
CLOSED FOR CONSTRUCTION	

ALL TRAILS ARE SUBJECT TO TEMPORARY CLOSURES. CHECK TRAIL STATUS FOR MORE INFORMATION AND OBEY ALL SIGNS AND CLOSURES.

CHRISTMAS & LOOKOUT LIFT ENHANCEMENT PROJECTS

Sun Valley Resort, ranked #1 for lifts in North America by Ski Magazine, is doubling down on that reputation for the 2026-27 season with two major upgrades on Bald Mountain. Lookout Express steps up from a quad to a new six-person lift spanning 2,673 vertical feet (~8.5 min ride), while the Christmas Lift gets a brand-new high-speed quad covering 1,354 vertical feet (~4.5 min ride). Both lifts operate at speeds up to 1,000 feet per minute, delivering improved capacity, reliability, and the kind of seamless uphill experience that put Sun Valley at the top of the list.

The difficulty ratings assigned to trails at Sun Valley are based on difficulty relative to other trails on the same mountain. Users of all ability levels should begin with easier trails before advancing.

BALD MOUNTAIN TRAIL IMPACTS

The City of Ketchum is building a new connector trail from Bald Mountain Trail to Warm Springs that will not be accessible until the trail is finished. There will be intermittent impacts to the first section of Bald Mountain Trail this summer. Please check the mountain report for updates. www.sunvalley.com/mountain-updates
